

# **POOLTEC**® **PRODUCT DATA SHEET**

## PRODUCT FUNCTION:

Pooltec Water Treatment is a multitask product that kills / prevents all types of algae growth, ultra clarifies water, and is super chlorine booster for both chlorine and salt pools. Used weekly, Pooltec synergizes with all types of chlorine to boost water quality and chlorine effectiveness. It helps increase chlorine residuals in salt pools especially during heavy use periods. Pooltec also keeps pool water consistently treated, eliminating cleanup products such as algaecides and clarifiers. Overall, Pooltec provides for easier pool maintenance and reduces chlorine use from 30% to 65%.

## HOW IT WORKS:

Pooltec's enviro-safe polymers uniquely synergize with all types of sanitizers to provide superior water quality, greater clarity, and improve water sanitation. Unique cationic polymeric compounds function as a broad spectrum, non-oxidizing algaecide-microbicide that kill and control the growth of microorganisms by disturbing their normal metabolic process of the living cell. This process achieves a super-sanitized condition with average oxidizer levels.

## FEATURES:

1. The most effective pool care ever.
2. Non hazardous, enviro-safe formulation.
3. Reduces chlorine use, shocking, and other chemical usage.
4. Broad-spectrum algaecide, fungicide, and microbicide.

## SELLING POINTS:

1. Small weekly dosage makes it very easy to maintain pool water consistently clean.
2. Strong synergy with chlorine results in improved chlorine effectiveness and residuals.
3. Ultra-clarifies pool water and kills all types of algae.
4. Multi-task treatment eliminates other cleanup products such as algaecides and clarifiers.
5. Low weekly cost pays for itself by reducing other chemical expenses.

## CONSUMER BENEFITS:

1. One bottle will last the average 20,000 gal. pool two months.
2. Pool maintenance so easy, you can finally relax.
3. Works well with salt pool generator units.
4. No wait. Swim immediately after treatment.
5. Eliminates many other treatments such as clarifiers and excessive shocking.
6. Excellent winter layup during non-swim season without chlorine.
7. Extremely easy to use. Just pour in.

## SPECIAL INSTRUCTIONS:

For heavily used or commercial pools, use maximum weekly dosage is recommended.
